

# LIVING IN ENGLAND

You may find it helpful to have an idea of how much spending money you will need when you come to England.

The fees you have paid include the cost of your course, course materials including books, ring file and paper, membership of our social programme (which includes many free activities) and accommodation (if you are staying with a host family). Bournemouth, with its many interesting cultural and social opportunities, is an excellent place to stay while you study. The College has a full cultural and leisure programme available at a very reasonable extra cost (see price guide below).

This guide is designed to give you an overall idea of the cost of many of the goods and services.
