# General English 24

Put your English into action through an International or Academic Communicator pathway.

## Why General English 24 is different

| | |
|---|---|
| **Three parts, one purpose** | Structured language learning, targeted skills practice and the chance to use English for wider learning, all in one week. |
| **Two pathways, two goals** | Prepare for further study, or build personal and global skills for life and work. |
| **English is the medium, not the topic** | Explore curiosity, design a new experience, investigate an unfamiliar subject or respond creatively to a challenge. You learn something beyond English, through English. |
| **Skills that matter beyond the classroom** | Activities are informed by Cambridge Life Competencies and Employability Skills, so you develop collaboration, creativity, critical thinking, independent learning and communication. |
| **Recognition for what you achieve** | The IH London Global Skills Certificate recognises the transferable skills you develop alongside your English. |
