What is CLIL?

CLIL aims to introduce students to new ideas and concepts in traditional curriculum subjects using the foreign language as the medium of communication - in other words, to enhance your pupils' learning experience by exploiting the synergies between the two subjects. This is often particularly rewarding where there is a direct overlap between the foreign language and the content subject.

What are the practical implications of introducing CLIL into the school curriculum?

Teachers need to design materials to suit the needs of their learners, and to enable them to develop until they are working at high levels of cognitive and linguistic challenge.

Our CLIL course will allow teachers to build upon their existing language and learn new ideas and concepts to help teach their academic subject. The course is designed to give teachers an insight into how young people learn languages and how they could teach them. A significant component is giving the teacher the tools to continue to build upon their knowledge and learning after the course in order to continue to gain maximum benefit. The course is designed for non-native English speaking qualified teachers who are required to teach their academic subject in English.

Please Note: Work Shadowing in local Primary and Secondary schools can be arranged, ask for details.
