

Global Teaching Toolkit: English and CLIL for Educators

Course summary

This course is aimed at non-native language teachers or teachers of other subjects, who have just started using CLIL (Content and Language Integrated Learning) or intend to implement this approach in their classroom. CLIL is used in schools to teach subjects such as general science, art and maths, using a foreign language. Whether it is the language teacher teaching another subject in a foreign language or the subject teacher using a foreign language to teach content, the outcome will be the integrated learning of both content and language. This course will help school teachers build their confidence to use English in their classroom as well as provide them with the basic principles of CLIL methodology and practical ideas that can be applied to their CLIL lessons.

Course requirements

Teachers will normally have a level of spoken English equivalent to B1 or higher (Pre-Intermediate or higher). Applicants must be a primary or a secondary school teacher.
