CLIL - Module

It is fundamental to understand the key principles of CLIL and how theory can be translated into practice. How and why CLIL works.

What is the role of the teacher and what should they expect from their learners?

We look into the use of frameworks, and what makes an effective CLIL lesson using the 4 Cs.

Teachers will be given opportunities to design material and reflect on the different task types. Key to this is also learning how to select from existing material and adapt according to their learners' needs. We look at scaffolding tools for best practices.
